Approved Vendors

The following are John Hancock’s approved vendors for fulfilling medical requirements associated with life insurance applications.

Examination Vendors

APPS

800-727-2101 or apps.live.com

ExamOne

800-768-2056 or examone.com

IMS-Insurance Medical Services, Inc.

877-808-5533 or imsparamed.com

APS Vendors

ExamOne

800-768-2056 or examone.com

Express Imaging Services, Inc.

1-888-846-8804

Jetstream APS

310-826-3759, ext. 229
or jetstreamaps.com

Parameds.com

parameds.com

ReleasePoint (WFI Inc.)

800-999-9589
or releasepoint.com

Important Payments

- John Hancock will make direct payments only to the medical requirement fulfillment vendors that are contracted with John Hancock (see approved vendors list above).
- Producers or firms choosing to use medical requirement fulfillment vendors not included on the list of John Hancock approved vendors will do so pursuant to their own business arrangements.
- Upon receipt of a request for reimbursement of fees associated with medical requirements arranged by a producer or firm from a non-approved vendor, John Hancock will reimburse the producer or firm for such expense, subject to rates and standards deemed acceptable by John Hancock (see below for further details).

Reimbursement Fees

- John Hancock will reimburse the fee charged by the doctor or medical facility to release the APS, up to a maximum of \$100.
- APS fees in excess of \$100 must be pre-approved by the John Hancock Medical Fees Department (Medfees@jhancock.com).
- Reimbursements for any administrative service fees associated with the APS retrieval will be limited to \$17.

Frequently Asked Questions

1) Will John Hancock pay for medical requirement fulfillment services arranged by a firm or producer?

Yes, we will pay for such services if the following two conditions are met:

- The requirements are ordered to meet our underwriting guidelines, and
- The requirements have been received in connection with the underwriting of a formal John Hancock life insurance application.

Note: John Hancock will make direct payments only to the medical requirement fulfillment vendors that are contracted with John Hancock and included on the list of approved vendors. See question #4 for more information on reimbursement guidelines.

2) Will an approved vendor share a copy of the APS with the firm or producer ordering the APS?

Yes, an approved vendor will share a copy of the APS as long as the ordering producer or firm supplies the vendor with its own HIPAA authorization form (signed by the proposed insured) that gives the vendor permission to release the medical records to the producer or firm.

3) Will an approved vendor share a copy of the exam with the firm or producer ordering the exam?

Yes, an approved vendor will share a copy of the exam with proper authorization from the client. The copy of the exam will be sent to the original requestor.

4) Will John Hancock reimburse a producer or firm for APS fees?

As noted in question #1, John Hancock will pay for underwriting requirements that are required by us and have been received in connection with the underwriting of a formal John Hancock life insurance application.

However, please note the following:

- Producers or firms that choose to use a medical requirement fulfillment vendor that is not one of our approved vendors will do so pursuant to their own business arrangements.
- Upon receipt of a request for reimbursement of APS fees associated with medical requirements arranged by a producer or firm from a non-approved vendor, we will reimburse the producer or firm for such expense, subject to rates and standards deemed acceptable by John Hancock.

5) Will John Hancock accept a paramedical exam from a non-approved vendor?

Yes, John Hancock will pay for underwriting requirements that are required by us and have been received in connection with the underwriting of a formal John Hancock life insurance application.

6) How should a reimbursement request be submitted?

- ✓ Submit your requests for reimbursements by completing *Request for Reimbursement: Medical Fees*.
- ✓ If this is your first reimbursement request, please also provide a completed W-9 form.
- ✓ Submit reimbursement requests via mail or email:

Mail:

John Hancock Life Insurance Company
Attn: Life New Business
30 Dan Road, Suite 55765
Canton, MA 02021

Email:

Medfees@jhancock.com

Most reimbursement requests are processed within 30 days from the time we receive the request, formal application and medical requirements.

Please note that payments to individual producers (non-incorporated entities) are subject to information reporting under IRS section 6041, and a separate 1099-MISC will be issued for these reimbursed fees.

This 1099-MISC will be in addition to the 1099-MISC a producer receives for other compensation from John Hancock. Although we must report the reimbursements as gross income to the producer, a producer may be able to take a business expense deduction for the fees paid to providers. Producers should consult their own tax advisors.

Ratings Build Chart

Use this chart to find the rating required for height and weight. The rating is shown in the horizontal line across the top of the chart.

Each cell of the chart is the maximum weight allowed for each rating. For any build over the chart maximum, an offer is doubtful. To pursue a possible highly rated offer, please contact a John Hancock underwriter.

➤ To estimate your client's potential underwriting outcome, please visit our [UCheck](#) tool.

Height	125%	150%	175%	200%	225%	250%	300%
4' 8"	189	200	208	215	220	227	238

Smoking Classifications

Tobacco and Nicotine Use

Super Preferred Non-Smoker	Meets the Super Preferred criteria and has not used any form of tobacco or nicotine products within the last 5 years with the exception of the following: Limited Cigar Use: An occasional cigar smoker may qualify for Super Preferred Non-Smoker rates if he/she smokes 12 cigars or less per year and microunalysis is free of nicotine. ¹
Preferred Non-Smoker	Meets the Preferred criteria and has not used any form of tobacco or nicotine products within the last 2 years with the exception of the following: Limited Cigar Use: An occasional cigar smoker may qualify for Preferred Non-Smoker rates if he/she smokes 12 cigars or less per year and microunalysis is free of nicotine. ¹
Standard Plus Non-Smoker²	No tobacco or nicotine products in the past 12 months with the exception of the following: Limited Cigar Use: An occasional cigar smoker may qualify for Standard Plus Non-Smoker rates if he/she smokes 24 cigars or less per year and microunalysis is free of nicotine. ¹
Standard Non-Smoker	No cigarette or e-cigarette/vaping use within the last 12 months and either: 1. Does not meet all Preferred or Standard Plus criteria or, 2. Uses other tobacco or nicotine products.
Preferred Smoker	Meets the Preferred criteria but has used cigarettes, including e-cigarettes/vaping, within the last 12 months.
Standard Smoker	Does not meet the Preferred criteria and has used cigarettes, including e-cigarettes/vaping, within the last 12 months.

Recreational Marijuana Use

Smoked or vaporized	
Preferred Non-Smoker*	Occasional, once per month or less
Preferred Smoker	Occasional, up to 2 times per week
Standard Smoker	Regular use, up to 4 times per week
Individual Consideration	Regular use, more than 4 times per week
Decline/Individual Consideration	Daily use
Ingested	
Preferred Non-Smoker*	Occasional, once per month or less
Standard Non-Smoker	Regular use up to 4 times per week
Individual Consideration	Regular use, more than 4 times per week
Decline/Individual Consideration	Daily use

Medicinal Marijuana Use

With prescription card	
Preferred Smoker*	Smoked or vaporized
Preferred Non-Smoker	Ingested

*With a positive test result the classification will be as a Preferred Smoker

1. Occasional cigar smokers who have tested positive for nicotine will be considered Standard Non-Smoker at best. The earliest we will consider an improved rate classification is on or after the first policy anniversary and is subject to full underwriting. Consult with your underwriter for further requirements.

2. Refer to the specific product technical guide to determine the availability of Standard Plus and for the ages where Standard Plus rates are available.

Financial Underwriting Requirements and Reviews

Financial underwriting is a critical part of the underwriting process which examines the economic feasibility of the case at hand, and allows the underwriters to consider the insurable interest at the time of the application.

At John Hancock, we take a “purpose-driven” approach to financial underwriting. We recognize that life insurance may be purchased to cover many different needs. These needs can be broadly separated into personal (income replacement, estate planning, charitable giving, etc.) and business related (buy-sell, key person, etc.). Our underwriters use the following tools and approaches — among others — during the underwriting process to consider the purpose of the coverage and insurable interest. In all instances, our underwriters have the discretion to request additional financial requirements as they deem necessary.

Financial Underwriting Requirements

1) Telephone Interview

What is it?

An interview with the proposed life insured where questions related to the life insurance application, such as occupation, health history and avocations are asked.

When is it required?

Age	Face Amount
80–90	\$1,000,000 and up

A team of dedicated John Hancock underwriting specialists schedule and perform the telephone interview with the applicant. Our underwriters are experienced in handling the sensitive information shared during the interview.

Please note: A telephone interview may be requested at any age and amount at the underwriter’s discretion.

2) Financial Verification Supplements

What is it?

The *Financial Supplement* is a form required by John Hancock that asks for a detailed breakdown of assets and liabilities and must be signed by both the proposed insured and the agent. Select and submit a *Financial Supplement* that is applicable to the sale. John Hancock’s underwriters will handle the rest of the financial verification process.¹

When is it required?

Personal	
Age	Face Amount
Up to 65	\$7,500,001 and up
66–79	\$5,000,000 and up
80–90	\$1,000,000 and up
Business	
All Ages	All Amounts

For any asset type representing more than 25% of total assets, copies of the latest statements of values are required, e.g., copies of insurance policies for jewelry or art, or quarterly statements for investment portfolios.

1. In some scenarios, additional information to support the representation of assets and income may be required, such as brokerage statements.

Financial Underwriting Requirements and Reviews, continued

3) Request for Tax Transcript – *IRS Form 4506T-EZ*

In some cases, our underwriters may require additional documentation to verify the financial information disclosed in the life application. While not a routine requirement, in cases where the underwriter is unable to obtain this verification through other sources, the submission of a completed *IRS Form 4506T-EZ* may be requested. In cases where a signed 4506T-EZ is requested and submitted, John Hancock will use this signed authorization to request the IRS tax returns via a secure and confidential interface and will receive this information within 24–48 hours.

IRS Form 4506T-EZ is available as an optional form in our application kits. If requested by the underwriter, please have your client enter the last two years (i.e., tax period to be filled in) in Section 6 on this form.

Financial Underwriting Reviews

In addition to the above requirements, the underwriter also takes into account the following:

1) Insurable Interest/Insurable Loss

The first consideration in financial underwriting is to establish that an insurable interest exists. The concept of insurable interest is fundamental to ensuring that the insurance applied for makes economic sense. We consider insurable interest as existing when the owner (if other than the insured) and the designated beneficiary have a financial interest in the continued life of the insured and are able to demonstrate a measurable financial loss should the insured die prematurely. The loss should equal or exceed the requested insurance amount.

The underwriter will examine the amount of potential loss suffered by an owner/beneficiary in the context of the requested death benefit, purpose of coverage and financial profile (including the ability to pay ongoing premiums). It is the risk of loss that helps the underwriter quantify the amount of insurable interest and ultimately justify the requested death benefit.

2) Ability to Pay/Affordability

As part of the financial review of a case, an underwriter must determine if the applicant can afford to pay the premiums for the requested coverage and all inforce policies. This is usually established by reviewing the proposed insured’s application statement as to the source of the premium and the appropriate illustration. If the source is other than income, the proposed insured is encouraged to present the specific source of funding and an explanation of why this source is being used. Premiums generally are not expected to exceed 10–25% of gross income. In general, the higher the available disposable income, the greater premium to gross income ratio that would be acceptable.

In cases where the source of the premium is other than the insured on personal applications, a letter of explanation to include the reason for the third-party funding and the source of the funds is required. Additional details regarding the third-party source may be requested at the discretion of the underwriter.

Financial Underwriting Requirements and Reviews, continued

3) Inforce and Settled Policies

Understanding the complete picture of the inforce and applied for coverage on the proposed insured is an important part of the financial underwriting process. Inforce coverage disclosed on the application must include any settled or sold policies. Our underwriters include settled policies in determining justification of the total amount of insurance in force and the ability to pay, as well as the Jumbo Limit for reinsurance requirements. Providing incorrect or incomplete information in an application for life insurance, even if it is unintentional, is misrepresentation.

Our underwriters consider several factors when there are existing settled policies on the life of the proposed insured:

- The overall financial status of the proposed insured.
- The duration of the policies at the time they were settled or sold, or are currently being settled. John Hancock will not participate in new applications for life insurance associated with concurrent early duration settlements, or where a history of frequent settlement activities exists. For these purposes, “early duration” is defined as less than five years from policy issue date.

4) Trust Documents

Reviewing trust documentation can assist us in determining the presence of insurable interest.

The following documents are required during the trust review process:

- For any case where a trust is identified as being the owner/beneficiary, we need a completed *Trust Certification Form*, regardless of whether a properly executed trust agreement has been submitted or not.
- In addition, for all applications on proposed insureds age 70 and older², a copy of the executed trust document is required for our review.
 - Please note that on cases age 70 or older where the funding is to be accomplished via a *1035 Absolute Assignment* or the trust has been executed prior to January 1, 2005, we do not require a copy of the executed trust, but will require a completed *Trust Certification Form*.
- Prior to policy issue, our underwriters also review documents on certain policies including – but not limited to – trust, family partnership and LLC agreements.

2. Please note that John Hancock reserves the right to request a fully executed copy of the trust regardless of the proposed insured’s age.

Case Positioning Tips

Since you — as the agent — know your clients best, you are a key source of their financial information. A cover letter is recommended with all applications; it is your chance to explain the background of the sale, including:

The specific purpose of coverage and how that amount was determined relative to the proposed insured’s finances, including premium-paying ability (demonstrating premium to income relationship and/or premium to liquid net worth relationship).

Clarification of any points that may not be obvious in the application including both medical and non-medical factors that the client or producer want to bring to the underwriter’s attention.

Total insurance: inforce (including any settled or sold policies), all pending coverage applied for, replacement details and the ultimate total line.

See [Important Notes](#) to determine if there are any specific details about your case that you should include in your cover letter. The underwriter uses this information to justify the amount of coverage requested, and to make the most competitive decision right from the outset. Providing this information up front can streamline the underwriting process by reducing the need for additional information about the sale.

Personal Life Insurance, continued

Please note: all formulas and calculators provided are to be considered solely as a guide and are non-binding.

Purpose of Insurance	Underwriting Formula	Important Notes								
Estate Equalization	<ul style="list-style-type: none"> • Insurable value = up to 100% of the transferred asset subject to ability to pay • For retroactive cases, insurable value = asset value at time of transfer indexed at a growth rate of 5% per year 	<ul style="list-style-type: none"> • Value of total estate and value of asset transferred is required. • For retroactive cases, proof of asset transfer and current value is required. 								
Future Inheritance (Adult)	<ul style="list-style-type: none"> • Value of inheritance including a growth rate of up to 5% per year for a maximum of 10 years, subject to the insured's ability to pay • Underwriters consider the insured's ability-to-pay requirements to be satisfied by many intra-family or loan scenarios³ 	<ul style="list-style-type: none"> • Cover letter is required with complete details, including age and coverage in force on benefactor(s) as well as in force and pending coverage on all siblings and information to support the insured's ability to pay and source of premiums. 								
Income Replacement	<p>Age Factor x Earned Income</p> <table style="width: 100%; border: none;"> <tr> <td style="width: 25%;">18-30: 30x</td> <td style="width: 25%;">41-50: 20x</td> <td style="width: 25%;">61-65: 10x</td> <td style="width: 25%;">75+: individual consideration</td> </tr> <tr> <td>31-40: 25x</td> <td>51-60: 15x</td> <td>66-74: 5x</td> <td></td> </tr> </table>	18-30: 30x	41-50: 20x	61-65: 10x	75+: individual consideration	31-40: 25x	51-60: 15x	66-74: 5x		<ul style="list-style-type: none"> • For individuals whose personal income is low but future earnings' potential is high, it may be possible to consider higher amounts. • Social Security, pensions and annuities are not considered earned income.
18-30: 30x	41-50: 20x	61-65: 10x	75+: individual consideration							
31-40: 25x	51-60: 15x	66-74: 5x								
Juvenile Insurance	<ul style="list-style-type: none"> • Coverage should not usually exceed 50% of amount on parents • Amount requested should be reasonable relative to insurance on parents and siblings (similar coverage) • For face amounts over \$100,000 or those related to estate planning needs, gifting, or inheritance, approval will be on individual consideration basis taking into account all financial details • Application must be signed by a parent or guardian with whom the child resides 	<ul style="list-style-type: none"> • New York has legal restrictions on the amount of life insurance allowed on juveniles. Specifically, Section 3207 of the New York Insurance Law states that when a juvenile is dependent on the person(s) effectuating the insurance, i.e., parent/guardian, then the maximum amount that can be written is: <ul style="list-style-type: none"> - Ages Under 4.5 - maximum \$50,000 or 25% of the amount inforce on the parent effectuating the insurance, whichever is greater - Ages 4.5 to 14.5 - maximum \$50,000 or 50% of the amount inforce on the parent effectuating the insurance, whichever is greater • Washington has special legal restrictions for juveniles. Please contact your underwriter for details. • Please contact your underwriter for other special rules. 								
Personal Loan	100% of outstanding loan balance to creditor with remainder to life insured's estate subject to collateral assignment	Require details of loan which include source, amount, purpose, repayment schedule and interest rate.								

3. A detailed cover letter must be provided, and growth rates/factors are applied at the underwriter's discretion.

Business Insurance

Please note: all formulas and calculators provided are to be considered solely as a guide and are non-binding.

Purpose of Insurance	Underwriting Formula	Important Notes
Buy-Sell	Underwriters will consider the percentage ownership x fair market value of the business, plus a growth factor as high as 5% over 10 years. ³	Require percent ownership, fair market value of business, information as to whether other partners are insured.
Creditor — Business	Usually cover a percentage of outstanding debt equal to non-collateralized portion of debt up to 70%	<ul style="list-style-type: none"> • Insured must be a key person. • Require loan details: source, amount, purpose, duration, repayment terms.
Key Person	Generally, underwriters will consider a death benefit of 5-10 x income, but for key employees of well-established businesses, underwriters may consider 15-20 x total compensation. ³	<ul style="list-style-type: none"> • Following information may be required: income, role in organization, specialized skills, experience. • For the state of New York, please contact your underwriter for special requirements.
Line of Credit Coverage	May be considered up to 70% of documented line of credit (LOC)	Require role of insured, source of LOC, details of LOC including amount, average amount utilized, purpose, repayment terms, interest rate.
Sole Proprietor	Fair market value of the business plus a modest growth factor	Require confirmation of ownership, fair market value of business, copy of buyout agreement for some cases.
Venture Capital and Start Up Companies	<p>Individual Consideration</p> <p>Generally, face amount should not exceed key person limits when key person is the primary purpose. If loan, use creditor guidelines</p>	Each case will stand on it's own merits. Requires confirmation that capital has been obtained. May also require, profitability projections, product/service descriptions, product cost/pricing, salability, and experience/skills of management team.

3. A detailed cover letter must be provided, and growth rates/factors are applied at the underwriter's discretion.

Underwriting for Foreign Travel

These guidelines apply to U.S. residents including residents of Puerto Rico, Guam and the U.S. Virgin Islands traveling for less than six months per year. Travel for six months (183 days) per year or longer is considered Foreign Residency.

- All products are available
- Applications should not be submitted with any travel planned outside of North America within the next 30 days, until the applicant's return
- Coverage may not be available to individuals traveling to any country where a U.S. State Department travel warning, advisory, or alert has been issued. Military deployment to a war zone will not be considered
- Occupations such as foreign correspondent, diplomat, missionary, security personnel, and foreign aid worker will not be considered
- Underwriter will factor in all travel alerts posted by U.S. Department of State

Foreign Travel	<ul style="list-style-type: none"> • Which countries and destinations in each country • Frequency and duration of visit (total number of days/year in each country) • Purpose of travel • Age of applicant • Health of applicant • U.S. citizen or permanent resident 	<p>Requirement: Foreign Travel Questionnaire</p> <p>Information to include: Travel questionnaire outlining destination(s), frequency and duration of visits must be submitted with the initial documents</p>	<p>Best Case: Super Preferred available for travel to A and B countries for up to three months, and to most E countries¹ for travel up to two weeks</p> <p>Standard: Available for travel to C countries for more than three months up to six months</p> <p>Decline: Any travel to Afghanistan or Iraq Travel to other E countries¹ for up to four weeks – individual consideration will apply</p>
-----------------------	---	--	---

1. Travel to E countries will be considered only for major cities.

Underwriting for Non-U.S. Residents

John Hancock is a leader in offering life insurance to high-net-worth (\$5MM+) foreign nationals with strong US connections. To establish a US connection, clients must demonstrate to **John Hancock’s satisfaction one or more of the US Nexus criteria, along with each of the other factors listed below.** Underwriting reserves the right to request evidence supporting qualification of foreign national candidates.

1) U.S. Nexus	The client must present U.S. interests that would be protected by the purchase of the insurance. The extent of the client’s U.S interests must be substantial relative to the amount of insurance applied for. Evidence of insurance need may include the following: <ul style="list-style-type: none"> • U.S. real estate ownership • U.S business interests/employment • Presence of immediate family members in the US • US investment holdings with a minimum deposit of \$200,000 directly titled to the proposed insured (where a separate financial presence exists — see section 3 below)
2) Physical U.S. presence	The client must demonstrate a regular and recurring physical presence within the US, related to the US insurance need. The length and purpose of the client’s U.S. stays will be taken into consideration. Presence in the U.S. of under 15 days per year on a recurring basis will not be considered.
3) Financial U.S. presence	The client must demonstrate a substantial US financial presence. The extent and nature of the client’s U.S. assets will be taken into consideration. The client must have a minimum of \$200k or 25% of the coverage amount applied for in US assets that are directly titled to the client or to a US entity connected to the client.
4) U.S. source of funds/ policy ownership	Premiums must be paid from a U.S. account directly connected and titled to the client. Designating foreign entities (e.g., trusts, holding companies) or individuals other than immediate family members as owner or beneficiary of the contract will not be considered. All designations are subject to underwriting review.

Solicitation requirements

- **Solicitation must take place in the US, including completion of:**
 - Application
 - Illustration
 - Exams¹
 - Labs
- **John Hancock does not accept a Power of Attorney**

Policy e-Delivery availability

- **Electronic delivery may be available if all other solicitation activities take place in the US**
- **Consult your underwriter for more details**

1. Exams performed in Hong Kong may be considered with pre-approval from your Underwriter.

Foreign National Parameters

Before submitting an application, please check to ensure your case falls within the following parameters. Additional guidelines and tips can be found [here](#).

Minimum Issue Age	20		
Maximum Issue Age	75 ^{1,3}		
Minimum Net Worth²	\$5 million U.S. or equivalent		
Minimum Face Amount	\$1 million		
Best Class Available^{3,4,5}	A and B: Super Preferred; C: Preferred		
Maximum Mortality Rating	200%		
Maximum Capacity⁶	\$40 million for A and B countries ¹	\$24 million for C countries ¹	\$25 million for Canada
Jumbo Limit⁷	\$65 million for A and B countries	\$45 million for C countries ⁸	
Ownership Structure	<ul style="list-style-type: none"> • The owner must have a U.S. Tax ID or SSN, or must complete W-8BEN • Two-party ownership (i.e., personal ownership) is allowed • Offshore trusts or entities are not allowed 		
Solicitation	All solicitation must take place in the U.S, regardless of the country of residence. Solicitation is defined as the entire new business process, e.g., illustration, application, and completion of underwriting requirements, including examinations and policy delivery. Please note that the applicable law and state version of an application should be the state where there is an independent connection with the policy owner and where the owner signs the application. For example, if the foreign national has a home in Florida and was solicited and will be signing the application in Florida, a Florida state version of the John Hancock application should be submitted.		
Products	All John Hancock permanent fully underwritten products are available. The same capacity is used for both individual and survivorship coverage. ⁹ For foreign nationals who are not U.S. citizens, Term coverage is available only for key person U.S. business purposes.		

1. Applicable country code and maximum capacity is based on where the proposed insured resides for more than six months per year. • 2. Individual consideration for lower net-worth amounts. • 3. Best Class will be reduced for U.S. citizens living abroad who do not have a net worth equivalent to \$5 million U.S. dollars or more. Automatic capacity for C countries is limited to issue age 70. • 4. Eligibility for HealthyEdge credits may be considered for Country A risks. • 5. Non-HNW applicants of C countries must reside in an approved major city and require a flat extra rating. Please consult with your underwriter. • 6. Capacity may vary in the following scenarios: for ages 71-75 (where applicable); for residents of Singapore, China, Hong Kong, and Macau; for Term products; for M-proprietary products. Further details on capacity and country codes can be found in the Field Underwriting Guide on John Hancock's producer website. • 7. The Jumbo Limit is the sum of all inforce coverage plus pending formal applications with all companies including John Hancock. Existing insurance that is being replaced will be deducted, providing we receive a fully executed absolute assignment replacement form transferring ownership to John Hancock. For Term coverage, if total amount inforce and applied for, exceeds \$30M, please contact your Underwriting team leader for further consideration. • 8. For M-proprietary products, please confirm Capacity with your John Hancock M-dedicated underwriter. • 9. Please note that for survivorship coverage, both lives must meet issue age and maximum mortality rating requirements.

Underwriting for Non-U.S. Residents, continued

<p>Scenarios where coverage is not available</p>	<p>Please note the following scenarios where John Hancock does not offer coverage to foreign nationals:</p> <ul style="list-style-type: none"> • Term products: Foreign nationals are not eligible for Term coverage except when a U.S. business is insuring them for key-person or business purposes. (Foreign residents who are U.S. citizens may qualify for Term insurance to be used for any purpose.) • Certain occupations: Clients in certain occupations, and in some cases their family members, are uninsurable – for example, politically exposed persons (PEPs) or their family members, government or military personnel, missionaries, journalists, diplomats, members of the judiciary, security personnel, and trade union officials. • Aviation: Individual policies may be offered to private pilots only, with an aviation exclusion; survivorship policies not available with aviation risk. • Riders: Your foreign national clients may not include underwritten riders in their life insurance coverage, e.g., Waiver of Monthly Deductions, Disability Payment of Specified Premium, Return of Premium, Increasing Supplemental Face Amount and Long-Term Care. In addition, currently the John Hancock Vitality Program (Healthy Engagement Rider) and John Hancock Term with Vitality are not available to foreign national clients. • Travel advisories: Coverage may not be available in any country with a travel warning or alert in effect.
<p>Underwriting requirements</p>	<p>Avoid delays in the underwriting process. The following checklist details what to include in an “in good order” submission.</p>
<p>Financial underwriting requirements</p>	<p>Financial underwriting is a critical part of the underwriting process that examines the economic feasibility of the case at hand, and allows the underwriters to consider the insurable interest at the time of the application. Please submit the following requirements:</p> <ul style="list-style-type: none"> ✓ <i>Foreign Resident Inquiry form</i> — required as initial review ✓ A broker’s cover letter of introduction, to include detailed travel information. (See “Tips to Packaging Your Case” here.) ✓ A completed <i>Financial Supplement for Personal Insurance</i> OR <i>Financial Supplement for Business Insurance</i> ✓ Proof of identity (e.g., copy of passport or visa) ✓ Letter of reference from financial institution with all account values and duration of relationship. If not provided, detailed account statements must be submitted to support the declarations on the <i>Financial Supplement for Personal Insurance</i> or <i>Financial Supplement for Business Insurance</i>

Underwriting reserves the right to request additional supporting documents.

<p>Additional considerations</p>	<p>In addition to these requirements, the underwriter also takes into account insurable interest/insurable loss, and the net worth and assets required to justify the requested coverage.</p> <ul style="list-style-type: none"> • Insurable interest/insurable loss The first consideration in financial underwriting is to establish that an insurable interest exists. The concept of insurable interest is fundamental to ensuring that the insurance applied for makes economic sense. We consider insurable interest as existing when the owner (if other than the insured) and the designated beneficiary have a financial interest in the continued life of the insured and are able to demonstrate a measurable financial loss should the insured die prematurely. The loss should equal or exceed the requested insurance amount. The underwriter will examine the amount of potential loss suffered by an owner/beneficiary in the context of the requested death benefit, purpose of coverage and financial profile (including the ability to pay ongoing premiums). It is the risk of loss that helps the underwriter quantify the amount of insurable interest and ultimately justify the requested death benefit. • Justifying the coverage John Hancock underwriters also consider a client’s global net worth when determining capacity and justification for the coverage requested. <div style="border-left: 1px solid black; padding-left: 10px; margin-left: 20px;"> <p>Example</p> <p>Application</p> <ul style="list-style-type: none"> • 55-year-old male, citizen of the U.K. • Applying for \$10 million (typically would require net worth of \$7-8 million to qualify); no coverage in force with John Hancock • Net worth — \$12 million (\$3 million U.S.; \$9 million foreign) • \$3 million U.S. brokerage account, and • Three week-long trips per year to Miami for business • \$10 million applied for <p>Financial Presence and Nexus guideline</p> <ul style="list-style-type: none"> • The lesser of \$700K or 25% of requested death benefit in US assets • Business trips to Miami <p>CONCLUSION: The client is eligible for the \$10M he applied for</p> </div>
<p>Medical underwriting requirements</p>	<ul style="list-style-type: none"> ✓ John Hancock’s routine underwriting requirements ✓ Medical records (five-year history) from all the appropriate physicians and medical facilities ✓ APS must be provided in English. John Hancock does not cover translation fees and the translator should be at arm’s length to the sale ✓ In some instances, consideration for exams completed in Hong Kong or the United Kingdom may be available. Please contact your underwriting team lead for case-specific approval. <p>Please note that ExamOne is the approved vendor for this market: InternationalServices@questdiagnostics.com.</p>

Permanent coverage capacity: High net worth individuals

The following is a summary of available amounts for Non-U.S. residents applying for Permanent coverage, providing there is no additional coverage in force with John Hancock:

Country	Code	Best class	Capacity*	Retention	Jumbo
Dubai/UAE	A	Super Preferred	\$40,000,000	\$20,000,000	\$65,000,000
Panama	B	Super Preferred	\$40,000,000	\$20,000,000	\$65,000,000
Dominican Republic	B	Super Preferred	\$40,000,000	\$20,000,000	\$65,000,000
Canada	A	Super Preferred	\$25,000,000	\$10,000,000	\$65,000,000
China	A	Super Preferred	\$40,000,000	\$17,000,000	\$65,000,000

*Capacity subject to change. Capacity grades over age 70

1. Best Class will be reduced for U.S. citizens living abroad who do not have the net worth equivalent to \$5 million U.S. or more.
2. Eligibility for HealthyEdge credits may be considered for Country A risks.
3. Non-HNW applicants of C countries must reside in an approved major city and require a flat extra rating. Please consult with your underwriter.
4. Standard Plus is available depending on product selection.

Tips to packaging your case

Take advantage of the following tips to help streamline the application process.

Identify your client:

- Determine if your client meets the guidelines and requirements outlined [here](#).
- Check that your case falls within the parameters and scenarios [here](#).

Submit an informal application:

- Include the *Foreign Resident Inquiry Form*
- Include a broker's cover letter of introduction with the following information:
 - Details of residences and travel outside country of residence
 - Source of your referral to the proposed insured
 - Proposed insured's background information and mention of any other publicly available information
 - Source of insurance premium: at John Hancock we require premium to be paid from a pre-existing U.S. bank account and billing address. It is important to note the account history and how long it has been in place
 - Time spent in the U.S.

About This Guide

The following pages highlight some of the more common impairments we see at John Hancock. They are organized into these sections: Medical Impairments, Long-Term Care Rider, Non-Medical Risks (Aviation, Avocations, Professional Athletes, Foreign Travel and Non-U.S. Residents).

Use the information as a reference on what details the underwriter needs up front to assess specific conditions as well as factors that will impact the decision.

Keep in mind this guide provides an overview of the factors the underwriter considers and the likely decisions and is not a complete underwriting manual.

Each chart identifies the following information:

Condition and description	Factors affecting the decision	For smoother processing	Likely underwriting decision
<p>The name of the impairment, including a short description.</p> <p>Conditions are listed alphabetically (types of cancer categories listed alphabetically under “Cancer”).</p> <p>See navigation bar on far right of the page to search for the name of the impairment.</p>	<p>The criteria the underwriter uses to classify the risk.</p>	<p>These are the specific details and requirements (in addition to routine underwriting requirements) to include in your application package to help focus APS requests, ensuring the correct information is requested from the doctor up front. This will streamline the underwriting process by significantly reducing the need for subsequent reports, or other requirements, while also allowing the underwriter to make the most competitive decision from the outset.</p>	<p>The classification or rating necessary for the impairment based on the factors and requirements presented. Most conditions have a sample decision for a best-case scenario, typical case, and worst-case rating.</p> <p>Note: Standard Plus is available depending on product selection.</p>

Please note that the likely underwriting decisions for Medical Impairments are applicable only to the life insurance portion of a policy. Go to Long-Term Care rider for details on likely underwriting decisions.

Acronyms and Abbreviations

AAA	Abdominal aortic aneurysm
ABI	Ankle-brachial index
ADLs	Activities of daily living (e.g., feeding, bathing, dressing)
APS	Attending physician's statement
ASD	Atrial septal defect (congenital heart disorder)
ATP	Airline transportation pilot certificate
BP	Blood pressure
BUN	Blood urine nitrogen
CABG	Coronary artery bypass graft
CAD	Coronary artery disease
CFS	Chronic fatigue syndrome
CHOL	Cholesterol
CKD	Chronic kidney disease
CLL	Chronic lymphocytic leukemia
COPD	Chronic obstructive pulmonary disease
CT	Computed tomography
CTA	Computed tomography angiogram
CVD	Cerebrovascular disease

CXR	Chest x-ray
DWI	Driving while impaired
DVT	Deep vein thrombosis
EBCT	Electron-beam computed tomography
ECHO	Echocardiogram
EEG	Electroencephalogram
EF	Ejection fraction
EKG	Electrocardiogram
ER	Emergency room
FEV1	Forced expiratory volume during first second
FH	Family history
GI	Gastrointestinal
GXT	Graded exercise test
HBsAg	Hepatitis b surface antigen
HIV	Human immunodeficiency virus
HTN	Hypertension
IADLs	Instrumental activities of daily living (e.g., banking, shopping)
IC	Individual consideration
IDDM	Insulin dependent diabetes mellitus

IFR	Instrument flight rating
LFT	Liver function test
LIPIDS	Fats in the blood (e.g., cholesterol)
LTC	Long-term care
MRI	Magnetic resonance imaging
MVR	Motor vehicle report
NIDDM	Non-insulin dependent diabetes mellitus
OSA	Obstructive sleep apnea
PFT	Pulmonary function test
PP	Postpone
PAF	Paroxysmal atrial fibrillation
PSA	Prostate specific antigen
PTCA	Percutaneous transluminal coronary angioplasty
PVD	Peripheral vascular disease
Rx	Medication
TEE	Transesophageal echocardiography
TIA	Transient ischemic attack
TST	Treadmill stress test
VSD	Ventral septal defect (congenital heart disorder)

Medical Impairments, Life

Condition and description	Factors affecting the decision	For smoother processing	Likely underwriting decision
<p>Alcohol Excess Alcohol consumption considered as alcohol abuse, dependence, at risk, and heavy use.</p>	<ul style="list-style-type: none"> • Current age • Amount of alcohol declared • Any diagnosis of abuse or dependence • How long abstinent or consuming in moderation • Any relapses • Member of a self-help group • Treatment with medication • Any co-morbid conditions • Any medical complications • Driving history 	<p>Requirements: APS, paramed, MVR, blood test Information to include:</p> <ul style="list-style-type: none"> • Provide details of medical treatment and any psychiatric/psychological report • Document any residential care, including dates and length of treatment • Clearly outline any favorable aspects such as continued employment, attendance at self-help groups, etc. • Alcohol Questionnaire 	<p>Ratings depend primarily on applicant's age, time since last use, and any co-morbid factors Best Case: Over age 30 and >5 years since last consumption: Standard Plus possible Typical Case: 150 to 200% Worst Case: Decline</p>
<p>Anemia A reduction in the number of red blood cells due to blood loss, failure of the bone marrow to produce sufficient cells, or premature destruction of the cells.</p>	<ul style="list-style-type: none"> • Type of anemia • Cause of anemia, if known • Treatment • Details of testing done and referrals to specialists (include dates, names of tests and doctors seen) • Blood test results • Medications • Any concurrent impairment 	<p>Requirement: APS Information to include:</p> <ul style="list-style-type: none"> • Details of investigation and testing • Details of ongoing surveillance of the condition (including blood tests, electrophoresis) 	<p>Ratings depend on type of anemia. Decisions can range from Preferred to decline Iron deficiency anemia: Preferred possible when fully investigated and no underlying condition identified Aplastic anemia: Usually decline Hemolytic anemia: Standard to 200%, but rating could be higher depending on type and severity</p>
<p>Aneurysm Abnormal dilation of an artery.</p>	<ul style="list-style-type: none"> • Type or location of aneurysm • Date of diagnosis • Cause of aneurysm • Size and stability of aneurysm • Currently present • Treatment • Smoking history • Blood pressure control 	<p>Requirement: APS Information to include:</p> <ul style="list-style-type: none"> • All tests and details of ongoing surveillance • Details of any lifestyle modifications • Details of BP and lipid control • Smoking history • Any residuals (good level of activity) 	<p>Can consider on a rated basis 6–12 months post-op depending on the type of aneurysm Abdominal:</p> <ul style="list-style-type: none"> • Unoperated – small, stable x2 years: 150 to 200%. Better rating if stable for longer periods. Condition and description	Factors affecting the decision	For smoother processing	Likely underwriting decision
Angina Pectoris Chest pain caused by reduced blood flow to the heart due to Coronary Artery Disease.	Refer to Coronary Artery Disease		Unable to consider until 3–6 months after treatment
Angioplasty	Refer to Coronary Artery Disease		Unable to consider until 3–6 months after treatment
Arteriosclerosis	Refer to Coronary Artery Disease		
Asthma Chronic inflammatory condition of the airways causing shortness of breath that is triggered by allergens, irritants, cold air, or exercise.	<ul style="list-style-type: none"> • Current age • Date of diagnosis • Severity of symptoms • Frequency of attacks • Timing of attacks (day or night) • Type of medication and frequency of use • Compliant with medications • Medication side effects • Hospitalizations or ER visits • Limitations to activities • Smoking history • Concurrent impairments such as COPD, psychiatric disorder, alcohol abuse, CAD 	Requirements: APS or Asthma Questionnaire Information to include: <ul style="list-style-type: none"> • Pulmonary function tests, hospital reports • Details of lifestyle modification (such as non-smoking) • Level of activity • Type of medication and frequency of use 	Minimal: Super Preferred possible Mild: Preferred to 150% Moderate: 150 to 250% Severe: 250% to decline
Atrial Fibrillation Arrhythmia of the atria where it contracts chaotically.	<ul style="list-style-type: none"> • Date of diagnosis and age at onset • Age of applicant • Frequency of attacks • Fully investigated • Paroxysmal vs chronic • Treatment • Complications from treatment (e.g., drug toxicity or hemorrhage from anticoagulant) • Any underlying heart disease • Complications (e.g., stroke or congestive heart failure) • Any concurrent impairment (e.g., history of alcohol abuse, CAD, valvular disease, TIA, or stroke) 	Requirement: APS Information to include: <ul style="list-style-type: none"> • Copies of all cardiac investigations • Details of any prophylactic medication (e.g., blood thinners) • Outline any lifestyle modification • Current level of activity 	New diagnosis or new finding on insurance exam must be declined. If heart disorder, it will be rated according to the cause Well controlled PAF (paroxysmal atrial fibrillation) with minimal attacks: Standard If there is no CAD or other underlying heart disease, average rating for CAF (chronic atrial fibrillation) is 150 to 175%

Condition and description	Factors affecting the decision	For smoother processing	Likely underwriting decision
Bariatric Surgery Surgery for morbid obesity, most commonly known as “stomach stapling.”	<ul style="list-style-type: none"> • Pre-operative weight • Any co-morbid conditions (such as diabetes, hypertension, coronary disease) • Date of surgery • Type of surgery • Any surgical complications • Outcome of surgery (weight loss, improvement of risk factors) 	Requirement: APS Information to include: <ul style="list-style-type: none"> • Supply all medical reports relating to the surgical procedure and follow-up • Illustrate positive improvements in lifestyle 	Unable to consider until 3–6 months after surgery Assuming no complications – Up to 12 months: Rating based on pre-operative weight minus half any weight loss >1 year: Rating based on current weight
Barrett’s Esophagus Disorder in which the cells normally lining the lower esophagus are replaced by cells normally found lining the stomach. May occur due to esophageal injury caused by reflux. Barrett’s esophagus may be a pre-malignant condition for esophageal cancer.	<ul style="list-style-type: none"> • Current age • Ongoing risk factors • Type of testing done and results (endoscopy, biopsy) • Stable course • Medication/treatment • Response to medication treatment • Compliant with medical treatment and follow-up • Complications (e.g., hemorrhage, perforation) 	Requirement: APS Information to include: <ul style="list-style-type: none"> • Pathology report • Details of ongoing follow-up (e.g., endoscopy) • Details of lifestyle modification (stop smoking and alcohol use) • Medication/treatment 	Best Case: Preferred if no dysplasia and good follow-up done on a regular basis Typical Case: Standard to 150% Worst Case: Decline (if history of high-grade dysplasia and treated with medication only)
Blood Pressure	Refer to Hypertension		
Bypass surgery	Refer to Coronary Artery Disease		Unable to consider until 6 months after treatment
Cancer	Refer to specific organ or type of cancer		
Cancer: Basal Cell Carcinoma A type of skin cancer that rarely spreads.	<ul style="list-style-type: none"> • Date of diagnosis • Pathology (confirmation of basal cell carcinoma) • Type of treatment • Date treatment completed • Confirmation that tumor has been removed completely • Any recurrence or spread • Ongoing risk factors like multiple dysplastic nevi and a propensity to develop other skin cancers • Any serious complications from treatment 	Requirement: APS (not typically required if pathology was confirmed as basal cell carcinoma) Information to include: <ul style="list-style-type: none"> • Pathology report including post-operative report • Details of ongoing follow-up • Details of lifestyle modification (sunscreen, stop smoking) 	Complete excision: Standard or better immediately on removal; may qualify for Preferred <ul style="list-style-type: none"> • Eyelid - potentially ratable

Medical Impairments, Life, continued

Condition and description	Factors affecting the decision	For smoother processing	Likely underwriting decision
Emphysema	Refer to COPD		
Epilepsy/Seizure Disorder This is an event of altered brain function due to an abnormality of excessive electrical discharges from the brain cells. There are many different types of seizures and forms of epilepsy.	<ul style="list-style-type: none"> • Age at onset • Compliance with medication • Control of seizures • Reason for the seizure activity • Any alcohol use • Any other significant medical conditions 	<p>Requirement: APS</p> <p>Information to include:</p> <ul style="list-style-type: none"> • Type of epilepsy • Age diagnosed • Duration of history • Date of last seizure and number of seizures per year • Medications 	<p>Best Case: Generalized or partial, cause unknown, over 3 years since diagnosis, with a past history of 3 seizures or less per year and no seizure in the last year: Preferred</p> <p>Typical Case: Generalized or partial, cause unknown, 1–3 years since diagnosis, 3 or less seizures per year: Standard to 150%</p> <p>Worst Case: Decline if poor compliance with medication, history of alcohol abuse, frequent accidents, seizures cannot be controlled with medication</p>
Frailty A clinical concept describing a condition most commonly found in the elderly; it is associated with a high risk of mortality and morbidity.	<ul style="list-style-type: none"> • Current age • Evidence of cognitive decline or depression • Problems with the activities of daily living • Any involuntary weight loss • History of falling, fractures secondary to osteoporosis, frequent car accidents • Confinement to a nursing home or hospitalization within the past year • Number of medications • Any other significant health history 	<p>Requirements: APS, Cognitive and Mobility Assessment (such as Nation’s CareLink assessment) may be necessary</p> <p>Information to include:</p> <p>Clearly outline the positive aspects of your client’s independent and active lifestyle</p>	Most cases of frailty require individual assessment and ratings/offers are made following consultation with a John Hancock medical director
Gall Bladder Disease The gall bladder stores and concentrates bile produced in the liver. The most common disorders of the gall bladder are generally benign.	<ul style="list-style-type: none"> • Any other significant health history • Nature of the disease • Any serious complications (e.g., pancreatitis or jaundice) • Treated surgically 	<p>Requirement: APS (not typically required for gall stones)</p> <p>Information to include:</p> <p>Full records to include diagnosis, all investigations and test results</p>	<p>This is generally a benign condition and can qualify for best class if criteria are met. However, large, solitary gall bladder polyps in older individuals must be fully investigated before an underwriting offer can be considered</p> <p>Typical Case: Gallstones or multiple gall bladder polyps: Standard</p>
Heart Attack	Refer to Coronary Artery Disease

Underwriting the Long-Term Care Rider¹

The Long-Term Care (LTC) rider is underwritten based on morbidity risk rather than mortality risk and as a result, some proposed life insureds may not qualify for this rider even if they are Standard or better mortality risks.

Also, some combinations of Standard impairments may require this rider to be declined.

- The Long-Term Care rider cannot be issued at better ratings/rate classes than the life base policy assessment
- Risks with multiple impairments will be reviewed on an individual consideration basis

The Long-Term Care rider is available only if the life coverage is approved. It is NOT available:

- When the mortality rating on the base policy is >175% for LTCR '14 or >200% for LTCR '18
- With a flat extra
- To residents of foreign countries and also U.S. citizens traveling outside the U.S. for greater than six months per year (183 days)
- With any increasing rider (Return of Premium, Increasing Supplemental Face Amount)
- Post issue (i.e., the rider must be applied for with the life insurance application)

The Long-Term Care rider can be purchased in addition to a life insurance contract. This benefit allows an accelerated payout of a specific proportion of the proceeds of the life insurance as a reimbursement of long-term care costs.

1. The Long-Term Care (LTC) rider is an accelerated death benefit rider and may not be considered long-term care insurance in some states. There are additional costs associated with this rider. The Maximum Monthly Benefit Amount is \$50,000. When the death benefit is accelerated for long-term care expenses it is reduced dollar for dollar, and the cash value is reduced proportionately. Please go to jhsaleshub.com to verify state availability.

Underwriting the LTC Rider, continued

Condition and description	Likely underwriting decision
Activities of Daily Living (ADLs)	Decline if unable to perform any of the following ADLs or require supervision to do so: bathing, continence, dressing, eating, toileting or transferring
Alzheimer's Disease/Dementia	Decline
Ankylosing Spondylitis	May be insurable with life ratings up to 150% ²
Assistive Devices (including mobility aids)	Decline (examples include: cane, crutches, walker, wheelchair, scooter, hospital bed, stairlift, permanent catheter, respirator or oxygen)
Asthma	<ul style="list-style-type: none"> • Non-Smokers: May be insurable based on life ratings • Asthma classified as moderate or severe disease, or asthma in combination with smoking: Decline
Benign Cognitive Impairment	Decline
Bipolar Disorder (also known as Bipolar Affective Disorder or Bipolar Depression)	<ul style="list-style-type: none"> • Disease diagnosed as severe or new onset, or treated with anti-psychotic medications: Decline • Mild or moderate stable disease: Long-Term Care rider may be insurable based on life ratings
Build	<ul style="list-style-type: none"> • Individuals who have a BMI of ≤ 18.0 or ≥ 40.0 will not be considered • Overweight individuals with arthritis, CAD or other risk factors, and underweight individuals with depression, osteoporosis, and other risk factors may not be considered within BMI of 18.0–40.0
Cancer	If any life rating is required: Decline
Carotid Bruit/Carotid Disease An abnormal sound in the carotid artery caused by atherosclerosis. It is a sign of a risk for stroke.	<ul style="list-style-type: none"> • Unilateral or with favorable investigations: May be insurable based on life rating¹ • Uninvestigated cases with bilateral bruits: Decline
Chronic Fatigue Syndrome Severe fatigue generally lasting six months or longer where all other causes have been eliminated.	<ul style="list-style-type: none"> • Diagnosed over six months ago, not disabled, treated, asymptomatic, without limitations: May be insurable based on life ratings¹ • Diagnosed within the past six months, receiving disability payments, with limited activity or treated with steroids or narcotics: Decline
Chronic Obstructive Pulmonary Disease (Bronchiectasis, COPD, Chronic Bronchitis)	Non-Smokers may be insurable based on life rating ¹
Chronic Pain	<ul style="list-style-type: none"> • Fully active, no ongoing treatment with narcotics or narcotic injections, no assistive devices: May be insurable based on life rating¹ • With co-existing depression: Decline

The Long-Term Care rider can be purchased in addition to a life insurance contract. This benefit allows an accelerated payout of a specific proportion of the proceeds of the life insurance as a reimbursement of long-term care costs.

2. Best rate class available for LTC rider will be Standard.

Condition and description	Likely underwriting decision
Kyphoscoliosis A disorder characterized by progressive deformity of the spine.	Mild or moderate deformity, no osteoporosis and asymptomatic for at least six months: Long-Term Care rider may be insurable on a Standard basis
Multiple Sclerosis	Decline
Musculoskeletal Impairment Includes Degenerative Disc Disease (DDD), Joint Replacement, Radiculopathy, Spinal Stenosis.	<ul style="list-style-type: none"> • Must be: fully active, no assistive devices, asymptomatic, minimal physiotherapy, and no occupational therapy or surgeries within the past six months: Long-Term Care rider may be insurable on a Standard basis • Any ongoing treatment with narcotic pain killers, multiple steroidal injections, history of osteoporosis, fractures, and any pending surgeries: Decline
Neurogenic Bladder or Bowel	Decline
Obstructive Sleep Apnea (OSA)	<ul style="list-style-type: none"> • Non-Smoker, compliant with treatment, no rateable build: Long-Term Care rider may be insurable based on life ratings¹ • In combination with any co-morbidities such as CAD, diabetes, obesity, PVD, TIA, valvular heart disease, or alcohol abuse: Decline
Optic Neuritis	Unknown cause (i.e., idiopathic, and multiple sclerosis clearly ruled out as the cause), fully recovered, only one episode over two years ago: Long-Term Care rider may be insurable on a Standard basis
Osteoarthritis	<ul style="list-style-type: none"> • Mild to moderate disease, active lifestyle, no assistive devices, asymptomatic, no limitations: May be insurable at Standard or better • Severe disease, symptomatic, limitations, obesity, ongoing physiotherapy, narcotic use, steroid injections, or pending/recommended surgery: Decline
Osteoporosis and Osteopenia	<ul style="list-style-type: none"> • Best cases, Non-Smoker, under treatment, active lifestyle, and favorable risk factors: May be considered for Preferred. Cases with mild risk factors may be limited to Standard. Mild or moderate osteoporosis, not compliant with medication, with fracture history, co-morbid conditions, or other risk factors could be +50 to decline • With multiple fractures, T-score >-4.0, Smoker: Decline
Parkinson's Disease	Decline
Peripheral Arterial Disease (PAD, PVD)	<ul style="list-style-type: none"> • Mild disease and Non-Smoker, asymptomatic, active lifestyle, fully investigated with normal ABI scores: Long-Term Care rider may be insurable based on life ratings • In combination with any co-morbidities such as CAD, diabetes, obesity, TIA, valvular heart disease, or alcohol abuse: Decline, Smoker: Decline
Pneumonia	Proposed life insured over age 70 with more than one episode of pneumonia or any history of aspiration pneumonia within the past three years: May result in a decline
Pulmonary Hypertension	Decline

1. Best rate class available for LTC rider will be Standard.

Non-Medical Risks

Aviation

General Guidelines

- Retention and reinsurance are reduced for aviation without an exclusion rider
- Minimum issue age: 21
- Maximum issue age: 74 (age 70 for student pilots)
- Aviation exclusion will apply when maximum mortality or age is exceeded on Individual policies
- Maximum rating considered insurable with aviation: 200%
- Aviation exclusion does not apply on Survivorship policies (if the aviator exceeds the maximum age or rating, he/she can only be issued as uninsurable)
 - If aviator is uninsurable, verification is required that the spouse does not fly as a passenger with the aviator
- Aviation exclusion cannot be applied if aviation is the means of the insured's livelihood
- Aviation must occur in North America (excluding Alaska) and locations must have tower support (i.e., non-remote areas)
- Significant medical, accident, or drug/alcohol history, and/or motor vehicle violations may affect the availability of coverage

Driving

Activity	Factors affecting the decision	For smoother processing	Likely underwriting decision
Driving Motor vehicle accidents are the primary cause of death at younger ages, and the sixth leading cause of deaths overall. Contributing factors to fatal accidents include alcohol and excessive speed. At older ages (>65), it can be a flag for underlying cognitive degeneration.	<ul style="list-style-type: none"> • Current age • Types of infractions • Frequency of infractions • DWI (multiple) • Other suspensions and number of suspensions • Accident (at fault) • Risk-taking avocations 	Requirement: MVR Information to include: <ul style="list-style-type: none"> • Number and types of violations • Date of last violation • Date of last suspension, length of, and reason for suspension 	DWI cannot be considered until the license has been reinstated Best Case: Standard or Standard Plus if few, minor infractions Typical Case: \$2.50-\$5/1000 x 3 years Worst Case: Decline (multiple DWIs)
Motor Vehicle Racing	<ul style="list-style-type: none"> • Current age • Type of vehicle/size of engine • Type of fuel • Frequency • Speeds attained (average, highest) • Type of course • Location (outside U.S. or Canada) • Concurrent avocations 	Requirements: Avocation Questionnaire Foreign Travel Questionnaire (if applicable) Information to include: <ul style="list-style-type: none"> • Type of racing and frequency • Speeds attained 	Typical Case: \$5/1000 Worst Case: \$10-\$15/1000 to decline

Professional Athletes

	Professional Athletes on Sports Teams (includes Coaches and General Managers)	Professional Athletes not on Sports Teams
Automatic Binding Limit¹	\$25,000,000 ²	\$65,000,000
Jumbo Limit	\$65,000,000	\$65,000,000
Retention¹	\$10,000,000 (per player) ²	\$30,000,000
Team Cap	\$55,000,000	N/A

General Guidelines

- ✓ Professional athletes on sports teams (including coaches and general managers) are eligible for permanent products only. Athletes such as professional golfers and tennis players may be eligible for Term products
- ✓ Maximum issue age: 80
- ✓ Maximum exposure per sports team is \$55 million; once the team cap is reached, additional players, coaches and general managers cannot be considered
- ✓ Key Person coverage is subject to documented confirmation of a contract with five remaining years

1. Retention and reinsurance grade down at higher ages and ratings.

2. Assumes no inforce coverage, and within team cap.

Non-medical requirements. Based on the insured's recent age at nearest birthday and the total face amount of all policies for each insured.

Age	Face amount	Age	Face amount
Up to 65	\$7,500,000 and up	All ages	All amounts
66-79	\$5,000,000 and up		
80-90	\$1,000,000 and up		

Routine Underwriting Requirements

Best class basic criteria

Refer to the following information to determine if your client meets the basic or "threshold" criteria for each of the indicated risk classes. John Hancock uses these and other traditional risk factors to obtain a "Total Risk" of each applicant's medical history and health, resulting in a more nuanced assessment of their overall risk profile.

Permanent and term products, ages 18-70†

Super Preferred — basic underwriting criteria†

Tobacco use* No tobacco or nicotine products within the past 5 years with the exception of limited cigar use of up to 12 cigars per year and a microtransdermal form of nicotine. Occasional cigar smokers who have tested positive for nicotine will be considered Standard Non-Preferred at Best.

Personal history* No history of cancer, coronary artery disease, cerebrovascular disease or diabetes. No current respiratory.

Alcohol/drug No history of alcohol/drug abuse or treatment within the past 10 years.

DMH/meds/loss No drug while hospitalized or restless during convalescence within the past 12 years and no more than one convalescence year.

MIB Maximum of 1 moving violation within the past 2 years.

Aviation No participation within the past 12 months, except North American regularly scheduled commercial pilots and crew. Super Preferred with an aviation exclusion may be available.†

Winterize sports No participation within the past 12 months.

Preferred — basic underwriting criteria†

Tobacco use* No tobacco or nicotine products within the past 2 years with the exception of limited cigar use of up to 12 cigars per year and a microtransdermal form of nicotine. Occasional cigar smokers who have tested positive for nicotine will be considered Standard Non-Preferred at Best. Smokers who would apply if proposed insured has used cigarettes, included in quantities, within the past 12 months.

Personal history* No history of cancer, coronary artery disease, cerebrovascular disease or diabetes.† No current respiratory impairment.

Alcohol/drug No history of alcohol/drug abuse or treatment within the past 10 years.

DMH/meds/loss No drug while hospitalized or restless during convalescence within the past 5 years and no more than one convalescence year.

MIB Maximum of 2 moving violations within the past 2 years.

Aviation Only available to private pilots with more than 200 hours of experience who fly 25-200 hours annually with PIC or as pilot and crew on regularly scheduled airline flights. Preferred with a flat extra or aviation exclusion may be available.†

Winterize sports Preferred with a flat extra or aviation exclusion.† Not available for aviators. Preferred with a flat extra if otherwise qualified.

Best Class Criteria

Our automatic reinsurance capacity and retention limits

Competitive automatic binding limits^{1,2}

John Hancock has among the largest automatic limits in the industry, allowing us to frequently meet the large-scale needs of our customers.

Age	Face amount	Age	Face amount
0-79	\$65,000,000	70-79	\$65,000,000
80-89	\$30,000,000	90-99	\$12,000,000
90-99	\$7,000,000	100-109	\$4,000,000

Permanent Products - Automatic Binding Limits^{1,2}

Age	Face amount	Age	Face amount
0-79	\$65,000,000	70-79	\$65,000,000
80-89	\$30,000,000	90-99	\$12,000,000
100-109	\$6,000,000		

Term Products - Automatic Binding Limits^{1,2}

Age	Face amount
0-79	\$65,000,000
70-79	\$65,000,000
70-80	\$60,000,000

Jumbo Limits^{1,3}

The Jumbo Limit is the sum of all in-force coverage plus pending formal applications to be placed with all companies. A case that exceeds the Jumbo Limit will not be considered unless John Hancock has available internal retention or facultative reinsurance capacity.

Age	Product	Face amount
0-80	All Products - Individual and Business	\$65,000,000
81-85	Permanent Products Only - Individual and Business	\$50,000,000
86-90	Permanent Products Only - Individual and Business	\$25,000,000

Offering even more. With access to John Hancock's Jumbo Plus and the Super Plus, we can easily put together amounts in excess of \$100 million!
